PYTHON DEVELOPER | TECHNICAL WRITER

"As a seasoned Python developer, I bring a robust understanding of Python's versatile capabilities, having developed complex applications with a focus on efficiency, readability, and maintainability. My expertise spans across various libraries and frameworks, such as Django, Flask, and SQLAlchemy, enabling me to build scalable and robust solutions. In addition to my programming skills, I am also a proficient technical writer. I have a knack for distilling complex technical concepts into clear, understandable language, making it accessible for a wide range of audiences".

SKILLS

Languages: Python, Flask and Django frameworks, R , Solidity, C++, Java
